HW4: AI Ethics Summarization

Summarize the "Principles of AI Ethics" document.

This is a regulatory framework developed by the Saudi Authority for Data and Artificial Intelligence. The framework outlines the ethical principles for AI, aiming to support and enhance the Kingdom's efforts in achieving its national strategies related to the adoption of AI technologies, encouraging research and innovation, and promoting economic growth. The document is available at the following link:

https://sdaia.gov.sa/ar/SDAIA/about/Documents/ai-principles.pdf

Instructions:
1. Carefully read the document.
2. Write a summary in **Arabic** of the main information and ideas presented in the document.
3. The summary should be from 2 to 4 pages.
4. The summary should be clear and concise, but cover all the main points.

Evaluation:

The summary will be evaluated based on accuracy, completeness, clarity, organization, and use of proper Arabic.

Submission Guidelines

Submit a **PDF** report in the LMS with your name and student ID.
